Prepare for the Worst. Train to be the Best.

This project was supported by Cooperative Agreement Number EMW-2015-CA-00190-S01 administered by the U.S. Department of Homeland Security. Points of view or opinions expressed in this document are those of the author and do not represent the official position or policies of U.S. Department of Homeland Security.

FEMA's National Training and Education Division (NTED) offers a full catalog of courses at no-cost to help build critical skills that responders need to function effectively in mass consequence events. Course subjects range from Weapons of Mass Destruction (WMD) terrorism, cybersecurity, and agro-terrorism to citizen preparedness and public works. NTED courses include multiple delivery methods: instructor led (direct deliveries), train-the-trainers (indirect deliveries), customized (conferences and seminars) and web-based. Instructor led courses are offered in residence (i.e. at a training facility) or through mobile programs, in which courses are brought to state and local jurisdictions that request the training. A full list of NTED courses can be found at www.firstrespondertraining.gov.
