

MGT 415 Disaster Recovery In Rural Communities

Disaster Recovery in Rural Communities is an eight-hour planning and management-level course designed for public officials, community leaders, and private-sector representatives in rural communities who play key roles in the disaster recovery process. The course assists rural communities with effective and efficient implementation of recovery efforts, thus ensuring the best possible long-term social and economic recovery of their communities from disaster.

Elements of course:

- Definition of disaster recovery
- Rural disaster recovery concerns
- Core principles of the National Disaster Recovery Framework
- Pre disaster recovery planning
- Impact analysis
- Short-term disaster recovery
- Damage assessment
- Media strategies
- Temporary housing
- Debris clearance
- Long-term community recovery (LTCR)
- Principles and benefits of a LTCR plan
- LTCR teams and staff
- Community trust and outside support
- LTCR projects
- Characteristics and duties of LTCR leaders
